Address: 22 Akko Street, Dansoman – Ghana, West Africa

## PROFILE SUMMARY

A frontend developer with a passion for problem-solving and loves bringing ideas to life in the browser.

Teaching others is a great way to reinforce what I have learnt so I love to constantly share my ideas and knowledge through blogging and tweeting.

## WORK EXPERIENCE

### Frontend Developer

Freelance, October 2020 - December 2021

- Marketing web development services on social media and in-person.
- Landing clients who are interested in getting a website
- Creating a personal or business website for clients
- Ensuring good interpersonal relationships with clients

### Web Developer

Sponsor My Education, January 2022 - Present

- Making wireframes, creating design palette & making final designs for website
- Converting Designs to live website using HTML, CSS & JavaScript
- Making advertisement graphic works to reach out to students.

## PROJECTS

### Password Generator

<https://dboatengg.github.io/password-generator/>

- Password Generator is a web application that randomly generates secured passwords for use.
- A user can generate a password of any length according to his preference.
- Passwords can include numbers and symbols by just ticking a checkbox and clicking 'Generate Password'.

---

## Portfolio website

<https://dboatengg.github.io/port-folio/>

- A personal portfolio website to display all the amazing projects I work on
- This project includes a blog which describes how I go about my problem solving and contact section for visitors to reach out to me.

## Clockwise

<https://dboatengg.github.io/Clockwise/>

- Clockwise is a web application that displays current time and date according to a user's local machine.
- This project was first designed in Figma and then translated into a live site using Html, CSS and JavaScript.
- A real time changing application that displays changing seconds.
